

Animals

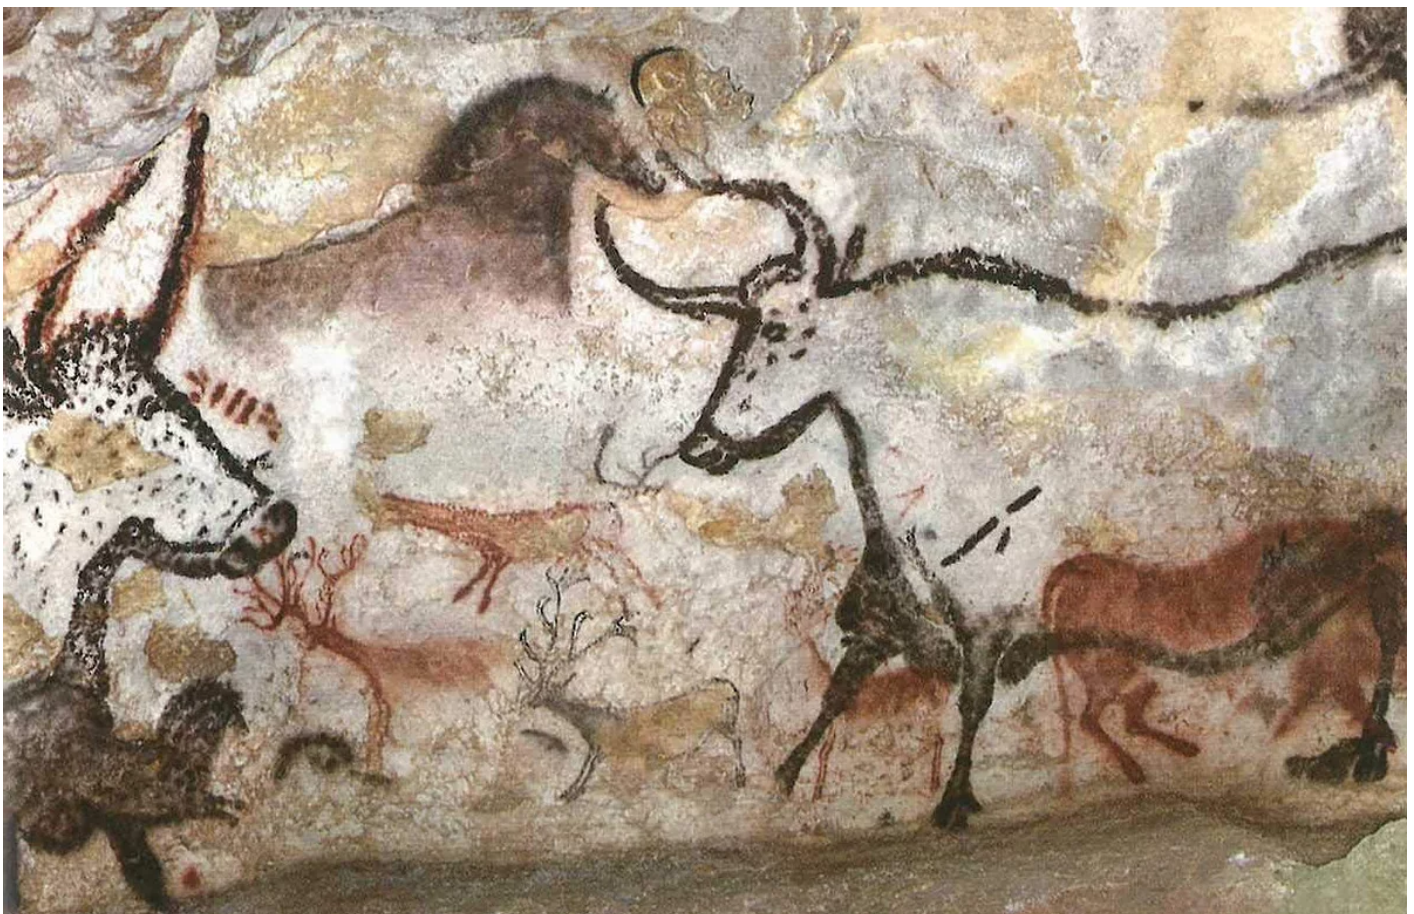

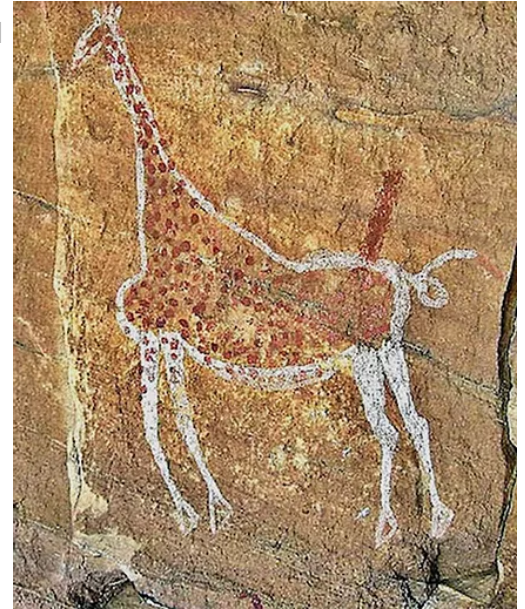

[Return to Cave Painting home page](#)

All kinds of animals are drawn in Cave Paintings, but as you would expect, the type of animal is different in caves around the world depending on the animals that lived in that country. Some of the animals are very detailed and others are more like "stick-animals" and cartoons.

Activity 1. Create some magical animals and draw them in the style of the ones in the photos.

Activity 2. What animals do you think would be drawn on a cave near where you live? Have a go at drawing them.
