

Patterns

[Return to Cave Painting home page](#)

Activity: On a piece of paper, see what patterns you can draw. Start by copying the wiggles and swirls and then try drawing patterns to mean something from YOUR life. Maybe a pattern that shows the wind and rain, or the pattern of bricks on your house, or the shapes made by water...

Get ideas from these photos from cavepaintings around the world:

Cave paintings often include patterns and shapes. Its impossible to know exactly what each of the patterns is meant to be or even if they represent anything or are just shapes. Archaeologists think that some of the patterns are showing important things in the cave people's lives. See what you think.
